WHAT IS ADELPLUS CAPSULES?

- Is a complete natural diet complement with active principles which have completely shown its efficiency and safety by supporting weight lose in a healthy way.

PRESENTATION

- Box containing 60 gelatine capsules.

COMPOSITION

- *Glucomanan, Garcinia cambogia, Citrus aurantium, L-Carnitine, Chromous picolinate, Potassium Iodide.*

WHICH ARE ITS NATURAL ACTIVE PRINCIPLES?

GLUCOMANAN

- Satiating. Decreases the intestinal absorption of sugar and fat.

HIDROCITITRIC ACID (*Garcinia Cambogia*)

- Reduces lypogenesis through the competitive inhibition of the ATP citrolysis enzyme.
- Important appetite inhibitor effect.

SINEFRINE (*Citrus Aurantium*)

- Affinity towards the $\beta 3$ receptors-adrenergics of the adipocitary membranes, stimulating their metabolism and increasing the oxidation of fat.
- Slows down the gastric movements which causes more feeling of satiety.

L-CARNITINE

- Termogenic effect through the mobilization of fat acids for their oxidation. This is the vehicle of transport between fat and energetic restructuring cell centers.

CHROMOUS PICOLINATE

- Acts as metabolic catalyst normalizing the insulin and glucemic level.

WHAT ARE ITS EFFECTS?

- Natural food suppressant and totally safe.
- Termogenic.
- Activates fat combustion.
- Inhibits fat and sugar absorption.

DOSAGE OF ADELPLUS CAPSULES

- The usual dosage is two capsules from thirty minutes to one hour before lunch and dinner with a glass of water.
